

Lincoln Avenue Academy

Extensions Choice Board: 5th Grade

Directions: Choose at least one activity below. You may do them all if you choose. Be creative following the guidelines. These are optional if you would like something extra to do after finishing your other assignments.

1. Write a math song about a topic we've studied this year. Take a video of yourself singing the song.	2. Research a topic you're interested in and tell me what you learned. You can create a poster, powerpoint, video, write a paragraph, draw a picture and tell me about it. etc	3. Write and solve 5 word problems involving fractions or mixed numbers.
4. Write a short story using only metaphors and similes. Be creative!	5. Spend 30 extra minutes on Freckle.	6. Create a math quiz about the topics we've studied (polygons, fractions, mixed numbers, decimals, graphs)
7. Create or build something new and tell me about your creation.	8. Identify the main idea of your choice book and draw a picture that illustrates it.	9. Take a video of yourself teaching a STEM concept to a family member. It should be something you've learned about this year.
